SPECIFICATIONS

Overview

The MAXIMUS, designed by Gill Schmid Designs from New York, was originally developed in conjunction with Astilleros Hijos de Barreras in Vigo, northern Spain, best known for constructing the MV Ritz Carlton cruise ship,. It is worth noting that this project may be eligible for the Spanish Tax Relief system, specifically designed for new construction projects of a commercial nature. This could potentially result in a significant discount of up to 20 percent on overall build costs.

Basic Information
