SPECIFICATIONS

Overview

The owner's health requires him to sell this beautiful yacht. This boat was off the market briefly, but is back on the market with new upgrades. All Engines have been recently serviced. In fact, the boat was surveyed a few months ago and that is where a problem with the main engine Turbos was discovered. All recommended upgrades have been completed, including new Turbos on both Volvo engines! The boat has approximately 2100 hours on the engines and approximately 2300 hours on the Onan generator. All engines have been run and serviced regularly, approximately every 100-200 hours. The most recent service was completed by Volvo in December, 2021.

This boat has not spent months just sitting at a dock without proper service. Purchased new, this vessel has only been used in local waters of Southwest Florida. The Beneteau 44 Swift Trawler is a combination of performance, economy and luxury. This unique vessel is built for comfort and stability whether you are day cruising, crossing oceans or cruising the Great Loop. Her shallow draft makes her one of the most versatile, yet comfortable "fast trawlers" on the market. This boat is striking with its Largo Blue hull. This vessel is fully equipped and ready to cruise from day #1. Unlike many previously-owned boats on the market, you won't have to spend days, weeks or months cleaning or fixing this vessel in order to make her cruise-ready. She is ready to go!

Basic Information
