SPECIFICATIONS

Overview

Lightweight, strong and with contemporary, progressive lines, the MC59p is the power cat of the modern era. McConaghy's carefully considered use of carbon and precise hull forms makes for a particularly fuel-efficient vessel at the lower speeds, yet the MC59p is able to achieve top speeds well in excess of 20kts. The MC59p offers two flybridge layouts to choose from, catering to a number of different usage modes. The aft flybridge option allows for a bank of seating behind the helm and a sun pad recessed into the coach roof, whilst the extended flybridge option creates a larger social space, with the addition of a bridge atop the coach roof. There are three versatile interior arrangements available, allowing for a three or four cabin layout or an arrangement that positions the master suite on the main deck. Interior styling comes from Design Unlimited, an award-winning studio with extensive experience in both large custom yachts and the production sector. Their attention to detail and innovative storage solutions that allow for living space to be maximised, make the MC59p a mini-superyacht, with luxury and performance ability perfectly partnered.
