## Overview

---

NEXT GENERATION POWER CAT Lightweight, strong and with contemporary, progressive lines, the MC63p is the power cat of the modern era. McConaghy's carefully considered use of carbon and precise hull forms and fixed foils makes for a particularly fuel-efficient vessel at her 20-knot cruising speed, yet the MC63p is able to achieve top speed of 36 knots and offers a range of 1,500 nautical miles. The MC63p offers two flybridge layouts to choose from, catering to a number of different usage models. The aft flybridge option allows for a bank of seating behind the helm with a sun pad recessed into the coach roof, whilst the extended flybridge option creates a larger social space for relaxing or toy stowage, with the addition of a bridge atop the coach roof. There are three versatile interior arrangements available, allowing for a three or four cabin layout or an arrangement that positions the master suite on the main deck. Twin bunk cabins forward allow for the accommodation of crew and McConaghy welcome a client to specify their own cabin configuration. Retractable glass panels flank the open-plan saloon and galley, and full height bi-fold glass doors connect this dynamic social space to the aft deck. On the port side, a spiral staircase leads up to the flybridge. Interior styling comes from Design Unlimited, an award-winning studio with extensive experience in both large custom yachts and the production sector. Their attention to details and innovative storage solutions that allow for living space to be maximised, make the MC63p a mini-superyacht, with luxury and performance ability perfectly partnered. The MC63p carries her tender on an aft cradle, deployed and recovered by a hydraulic lift system. A tender or water toys can also be stowed on the foredeck.
