Overview

Fancy by Dada and SFG Yacht Design Present M/Y D67 Timeless aesthetic defined by a sophisticated simplicity...

Designed by Fancy by Dada and SFG Yacht Design, the D67 is ideal for those who love cruising in modern comfort over long distances while getting the most from the abundant interior and exterior spaces. The D67 takes a more traditional approach, where elegance, beauty and exclusive personalization are the main focuses.

Exterior Design: Fancy by Dada / SFG Yacht Design Interior Design: Fancy by Dada

Exterior Design

Smooth, long flowing lines, clean shapes and functionality define the philosophy behind the exterior design of the D67.

The main deck welcome's you on board with a 7-meter swimming pool with a swim up bar and glass floor surrounded by sun pads and lounge areas designed for the most discerning of sun worshipers along with more intimate seating areas sheltered from the sun at the entrance of the main deck salon. Large, disappearing glass doors allow for an open feeling between the main salon and aft deck.

The bridge deck aft opens up to an intimate setting with two designer bars and a large wrapping sofa along the aft end. The bridge deck salon is meant to be a transition of the aft deck with large sliding glass doors along the sides of the deckhouse for an open terrace feeling.

The lavish sundeck is filled with generous spaces designed for entertaining big groups and also allowing for intimate settings throughout. One of the key features of the sundeck is the bubbled glass overhead in the hardtop; this provides a unique atmosphere that isn't found on any other yacht of this size.

Forward on the bridge deck is a beautiful lounge followed by a touch and go helipad.

Subtle details are strategically placed throughout the exterior of the yacht; the objective of this was to keep the guests on board constantly entertained with new finds to delight the senses.

Interior Design

The interior décor is fully custom with subtle contrasts and supreme harmony of form, as elegance finds expression in a select handful of distinctive, essential elements and materials.

The D67 can accommodate 14 guests in 7 cabins. The master is located on the main deck forward and is guarded by two VIP cabins aft with floor to ceiling windows in each.

Four more large guest staterooms are located on the lower deck. Located amidships on the bridge deck is the gym, equipped with everything you

would find at your fitness center on land, included in the gym area is a built in sauna and head. Opposite of the gym is the cinema that can house all the guests on board for movie nights; a bar is also located inside the cinema room.

Down below aft is located the beach club and tender bays. This beach club is unique in the fact that the tenders are housed in glass rooms and the main social areas are centrally located. Another key feature of the beach club is the built in storage for water toys and other types of equipment.
