SPECIFICATIONS

Overview

The world-acclaimed team at Vripack and the custom craftsman of Evadne Shipyard have partnered together again to build another masterpiece in their SUV line of Explorer Yachts - *Rock XL*. The 110ft “big sister” to the award-winning *Rock 85* can be tailored to your preferences in terms of internal design and layout, outside deck spaces, and decor.

This transatlantic-capable yacht is built from steel and aluminum and was designed by Vripack, a world-renowned firm with over 60 years of expedition-yacht excellence. She will be the first of the new *Rock XL* line, following a series of 4 successful and award-winning builds from the collaboration of Evadne Yachts and Vripack. Take advantage of her impressive 265GT and 22,000-liter fuel capacity which results in a 4,000nm range to unlock the hidden corners of the oceans, all with a draft of 2.3m. She is capable of carrying up to a 5.6m tender on her transom. Equipped with CAT C12.9’s her top speed is 16kts, with a cruise speed of 13kts.

Rock XL is equipped with Mastervolt Lithium-Ion batteries which makes her capable of running the AC, house load, and stabilizer system for 12 hours without starting the generators. This allows *Rock XL* to become completely silent overnight.

She boasts 5 generously-sized staterooms. Her on-deck master suite boasts a customizable layout with an optional gym and office. She also can be fitted with the iconic private owner’s balcony that is an exclusive feature to the *Rock* line.

Enjoy exotic views from the panoramic windows of the Sky Lounge located on the bridgedeck, just aft of the pilothouse and forward of her full bar.

Rock XL’s “little sister”, *Rock 85*, was sold on the second day of her world premiere at the 2019 Cannes Yachting Festival. She has already explored over 14,000nm under her own hull.

This bespoke long-range expedition yacht sits at the top of her class in all aspects, and will be ready for delivery in 2022. *Rock XL* is now awaiting her new owner’s personal finishing touches.
