SPECIFICATIONS

Overview

A fast and light classic catamaran, built of Epoxy glass fibre and carbon structure. A safe boat capable of 300-350 miles passage per day. She is designed to give a real sailing experience while ensuring maximum comfort on board. The transverse structure and mast are of carbon fiber in order to keep her strong but light. She is easy to handle with electrical winches, twin helms and a clear view over the coach roof from the cockpit. Dining indoors and outdoors for 12. TAJ: the legend still goes on... This amazing catamaran originally known as CORIOLAN VI, was highly seen during St Tropez regattas and other famous events: elegance, comfort & performance are guaranteed! Her new current owner has invested not less than EUR 750,000 in a major 8 months refit in 2018: 2 new engines, 2 new generators, new standing rigging, all new interior with spacious, luminous and modern accommodations, etc. TAJ has 4 guests cabins for up to 8 guests and 1 crew cabin for 2 crew members. No fly bridge for such a good-looking catamaran, but the passionate sailors will enjoy 2 aft steering positions, a nice protected cockpit, slim hulls and 2 large trampolines forward. A real ocean-going sailing catamaran for going around the world and also available for charter.
