SPECIFICATIONS

Overview

Like her sporty stable mates in the Predator Series, the Manhattan 66 has her twin FP props mounted in mini tunnels, which gives them a positive 'bite' on clean water. This set-up aids her ability to turn without any loss of forward momentum. Her extra beam and massive chines allow the hull to plane quickly and cleanly, which increases fuel economy.

Living areas on the main deck are also large and light, the wide beam creating plenty of space for family and friends. The aft cockpit further extends this airy living space and is an ideal place to sit in the cool of the evening and share a drink.

Heading up the Flybridge Motoryacht range, the Sunseeker Manhattan 66 was developed with scale in mind. Here, the designers have extended the limits of space and luxury.

But there is another side to this boat potential buyers may not realize. This 72ft 6in motor yacht can be easily handled by a husband and wife team. No skipper is required unless you want one. Her super smooth and responsive electronic throttles and gearshift levers, coupled with the electric bow thruster, make slipping this girl sideways into even the tightest of berths a breeze.

Additionally added refrigeration has been neatly installed for those extended Bahamas trips.

Basic Information

Category: Motor Yacht

Sub Category: Flybridge

Model Year: 2006

Year Built: 2006

Dimensions

LOA: 66' (20.12mm)

Beam: 17.08
