SPECIFICATIONS

Overview

If you know about Blackwood boats, you know most boat builders talk about product refinement a lot, Blackwood boats deliver. This example of a 27' offshore offers sleek styling and a luxurious. As an example, you will notice the upgrading in the padding of the cushions.

The 27 Offshore offers a performance modified-V running surface designed for high speed. It handles the inshore short chop as well. This boat has two macerated fish boxes and three live wells gives enough flexibility for most all fishing conditions. Blackwood design offers a lower freeboard, thus removing weight and allowing the twin 200 Mercury Verado's to get you to your fishing spot quickly and efficiently. The trim tabs will allow you to balance the load. The 130 Gallon fuel tank will get you out and back from most all fishing spots on the west coast of FL. With a 20" draft, you can run the flats on those windy days.

One design feature is the bow casting platform. This is a removable assembly that allows quick conversion to seating. The head is very well appointed, with a sink and a countertop. Swim ladders are on either side of the swim platform.

Blackwood boats use Kevlar for bottom rigidity as well as resistance to puncture of normal fiberglass construction. Blackwood offers a limited lifetime hull warranty.

There is NO trailer with this boat.
