## Overview

---

She is an ideal premium, grade large volume cruising yacht with all the right features and in great shape due to a fastidious and experienced owner.

The upgraded MTU 12V2000 Engines are very smooth and economical - slow cruise at 12mph you only burn 16gph total.

Naiad Stabilizers provide a roll-free cruising experience at slow speeds and on plane.

The raised panel cherry wood cabinetry is beautiful and very rare in the 74 and 75 Hatteras Motor Yachts of this series - gives the yacht a very warm and rich feel vs. the standard maple wood that most have.

The Bosch hardtop was installed a couple years ago adding a modernized look to the yacht, as well as provides excellent shade on the flybridge.

The layout was customized to have a fully private master stateroom area with its own access midship. The master is separated from the other staterooms by the engine room so privacy is unparalleled.

Additionally, the master stateroom has a custom master head setup that is much larger than the standard with a jacuzzi tub, offering a huge walk-in closet and additional storage in the master stateroom entry companionway - the space in the master is HUGE!

Another custom feature is the floating staircase to the flybridge in the pilothouse. This opens up the feel of the main deck considerably vs. the standard built-in staircase that closes off the pilothouse from the main salon and galley - this feature also offers excellent visibility aft for the captain.

The main deck offers an abundance of natural lighting - enhanced by the upgraded full glass aft salon entry door that is wall to wall and ceiling to floor. The galley also offers great natural light with the sink facing outboard and a big countertop to ceiling window. This plays wonderfully off of the gloss cherry woodwork. Compared with other 74 and 75 Hatteras MY's, none have the same open feel!

She received a full hull and topside paint job in 2011 that still shines, aided by her only being washed down with spot-zero filtered water for the past 10 years to minimize abrasion from hard water. The hull is painted a rich, deep green color that sets her apart and looks beautiful.

In 2021, the 3000 hour service was performed on the MTU engines.

BOOGIE BABE III is a high quality motor yacht that offers an incredible amount of volume and excellent seakeeping ability for an incredible value.
