SPECIFICATIONS

Overview

Defined by **strong lines**, it offers a unique distribution of outdoor spaces that can easily be reconfigured for your needs at a moment's notice.

The **large swimming pool** located at the end of the stern is the centerpiece of the “**Beach Club**” area, while **a second swimming pool**, located on the highest deck, is available for entertainment on longer cruises.

A large “**crow's nest**” is located above the Hard Top with **a 360-degree view**.

The layout includes **5 or 6 cabins**, leaving ample space for the crew quarters, which can accommodate **8 crew members plus the Captain**.

The tender is housed in a bay **below deck** with a side door for launch, a design solution which provides even more effective insulation between the guest cabins and the engine room.

The profile is reminiscent of a fishing boat, while the diagonal extensions to the rub rails along the sides are usually typical of working boats, offering a practical safety feature.

A unique aspect of the layout is that the **tenders are positioned amid ships** on the lower deck, which can be accessed by stairs on both sides of the main deck. The spaces are intended to be used as a “**winter garden**”, that can be opened or closed with sliding glass panels.

The **wheelhouse** is designed with a “**walk-around**” console with a sofa in front, to allow guests to take in all of the **views**.

The **sun deck offers guests an array of facilities to enjoy while socializing**, and a second swimming pool is topped by a crow's nest, or observation deck.

Powered by **MTU 16V2000M61 engines**, the yacht can reach a **top speed of 16 knots**, a cruising speed of 14 knots and a range of more than 6000 nm at an economical speed of 10 knots.
