SPECIFICATIONS

Overview

Tecnomar for Lamborghini 63 is not simply an exercise in style and design but she also represents the avant-garde of luxury speed boats. Inspired by the performance of Lamborghini supersport cars, Terzo Millennio and Sián FKP 37, there are two innovative elements at the basis of her design concept: speed and dynamic weight. The two engines MAN V 12 - 2000HP allow the yacht to reach the impressive speed of 60 knots, while the use of carbon fiber (a typical element of the cars of Sant'Agata Bolognese) guarantees the classification in the range of ultralight boats with a maximum weight of 24 tons for 63 feet in length.
