SPECIFICATIONS

Overview

The first model of MV19. The project of 19.50 m represents the natural evolution of the MV13 and has been designed by Francesco Paszkowski Design with Baglietto, both in terms of the exterior lines and the interiors. The Baglietto technical office is responsible for the hull, plant and propulsion designs.

The MV series draws its inspiration from the First and Second World War MAS paying tribute to the military crafts that made the success history of the Liguria- based yachting brand by reinterpreting some of their peculiar features and shapes in a modern style matching them with architectural elements adapted from the open segment.
