SPECIFICATIONS

Overview

The central cockpit layout offers passengers and the driver complete protection from the elements, especially at high speed, thanks to the glass windshield on three sides and the T-top. The side walkways offer freedom of movement from bow to stern. Attractive design with sculpted shapes, which are also found in the windshield where the front glass is a single section without pillars, thus ensuring excellent visibility. The large free deck area at the stern with the folding sides is ideal for welcoming guests. Those who love water sports can stow their equipment under the optional stern sundeck, the interior of which is used as a garage. The carbon T-top can be removed to stow the 43wallytender in a low-height garage.
