## Overview

---

Marlow 65 is a beautiful yacht that has been stored indoors most of the last few years. She was in a building when Covid 19 broke out and her European Owners were unable to easily come use her.

The 800 HP 3406E Caterpillar Engines let her burn a mere 8 GPH total at 8-knots and still provide a 12-18-knot cruise and 20-knot top speed. The engines and generators have been serviced professionally on a regular basis. She is a great sea boat with twin keels that fully protect the propellers. She is stabilized, and the teak decks look great!

The three staterooms, with three heads, make her a great family boat. She has a separate Crew Quarters aft with a single berth and head.

The Portuguese bridge and high bulwarks make this a very safe vessel underway. Wide covered side decks, large cleats and oversized hawse pipes make line handling safe and simple. The hard top and full enclosure provide protection from the elements on rough days and will keep the flybridge seating out of the sun and rain. The tender is a RIB with 4-stroke 60HP Yamaha outboard and a Bimini top and cover.

Marlow 65 has great outdoor spaces for relaxing or entertaining. The bow seating is a favorite spot to watch the world go by when coastal cruising, and is also a great spot at anchor. The cockpit is a great place for dinner with its built-in bench seat. You will find the flybridge is the best spot in a marina setting, Twin curved settees with seating for 6 and two low maintenance fiberglass tables are perfect for dining. The yacht also features a full set of rail covers to protect the varnished teak rails when you are not aboard.
