SPECIFICATIONS

Overview

As you walk up to I GOT THAT FEELING a 2021 Azimut 45 Atlantis the first thing you notice is that she is in impeccable condition. The entire boat has been ceramic coated and this shows in the beautiful Volcanic Island paint color. Her engines are currently under 200 hours but have already received their 200 hour service. The generator has received the 1000 hours service. The SeaKeeper has also been serviced. This Azimut is as clean as they come. With only having 2 owners IGTF has been meticulously maintained. In the past 6 months under her new ownership, IGTF had her props rectified, reconditioned, balanced and serviced. In addition there is new bottom paint and running gear paint. All the zincs have been replaced. The swim platform, refrigeration and AC units were all serviced and recharged. The underwater lights were replaced/rewired with Lumishore LED Surface Mount lights. The fresh water pump was replaced and there was a 110AC supply w/GFI switch reconditioned inside the engine room/bilge compartment.

When you walk aboard IGTF you first notice the well thought out spacious design. There is a garage can accommodate a 8'5" tender. Inside the garage, there are new LED work lights. There is access to a cigarette lighter charger, and a 110AC supply. On the exterior of the garage there are additional LED work lights. The hydraulic swim platform is ideal for adding 2 sea chocks and a jet ski. Ready to accommodate 6-8 guest comfortably. IGTF had a custom sun shade with carbon fiber poles right off the stern that connects to the rear of the cockpit to provide ample shade for lounging guests. IGTF decks are made up of a beautiful synthetic nonskid teak that is visually pleasing to the eye and easy to maintain. As you make your way to the helm you will notice the factory hardtop with retractable sunroof, easy to open and close with just the touch of a button. The exterior sound system has been upgraded to 8 speakers with a 12" subwoofer all powered by a Fusion/Garmin liquid display. This system is bluetooth & wifi compatible. The Volvo glass cockpit platinum package really shows off a clean look for the display screens. In January 2023 the Garmin & radar systems software was updated. With her Volvo IPS 600 480hp marine diesels and Gyro Stabilizer Seakeeper she really handles and drives like a dream. The joystick and bow thruster makes for easy maneuverability when docking or when in tight quarters. Recently the horn and remote controlled search light were replaced. Should you find yourself in need of a digital anchor that allows you to lock yourself in position using GPS satellite antenna, not to worry IGTF is equipped with skyhook. The cockpit was wired with an Optical Cable input for the TV system. There are additional USB assembly next to helm with twin USB 12V plug for ease of charging cell phone or tablets or other accessories. There is also a USB with 110AC & 12Volt supply and USB plug assembly under the aft deck dining table.

Making your way from helm into the salon-dinette you are greeted with 4 steps down a wooden staircase. New LED lighting has been added under the cabinet in the galley. There is ash wooden flooring and cabinetry with walnut trim throughout the vessel's interior. IGTF has vinyl headlining with cloth wall coverings, accented recessed led lighting highlights the room nicely.

The U shaped leather sofa is paired with a wooden dinette table and an aluminum pedestal that drops down to convert to a sleeper. There are black aluminum blinds for the windows with opening port hole vents. The skylight overhead sets for nice ambient lighting throughout the room. The salon has a Samsung flat screen tv with a Bose sound bar and a satellite tv receiver. There are 110 outlets in all the rooms and new USB charge ports were added to all of the main light switches for each cabin, salon & galley. Just to the stern right before the guest cabin there is an entry to the day head. The day head has a modern wet/head setup that makes for very easy clean up. The guest cabin has a total of 3 twin berths with the possibility of converting 2 berths into a queen. With just a simple 20 second step process it is easy to slide the bed over. The master cabin is all the way forward, it has a full size berth New blackout shade/screen and Master Cabin Hatch with its own Tecma electric toilet and a glass shower door with seat storage.
