## Overview

---

The ClubSwan 42 was designed by Germàn Frers and first launched in 2006. The philosophy on which the Club Swan 42 was built was that of a competitive racer cruiser.

The CS 42 offers a modern interior with a light and airy feeling to it. The accommodation and the central areas such as the galley and the navigation station have been planned to maximise space depending on whether the yacht is in racing or cruising mode.

'Supersonico' is a true performer, she has successfully completed many regattas and placed first in her class as well as first in the overall standings at several events.

She also comes with a 32' trailer included for easy storage.
