SPECIFICATIONS

Overview

Still Water is a beautiful example of a 2006 Formula PC34 express cruiser. She is freshly waxed and her hull shines as if new!

As you step onto the swim platform you will see all deck areas in the cockpit and swim platform are covered with Soft Teak. This not only is visually attractive but also brings a nice, cushioned feeling as you walk on her and also protects the fiberglass flooring underneath. Also located on the swim platform is a removable post with a Magnum gas grill allowing you to cook the days fresh catch or prepare the perfect steak! A handheld hot/cold shower completes the area.

Moving forward into the cockpit there is seating all around the removable cockpit table. The upholstery is original and is showing signs of wear in some areas. Also located on the port side of the cockpit is a wet bar with sink and refrigerator.

Up on step brings you to the helm area where you will see the Raymarine suite of electronics as well as the remote control for the bow mounted spotlight. There is a C80 chart plotter, auto-pilot, depth gauge, radar and a VHF radio. This makes navigation in all conditions easy! For docking you have the twin Mercury 496 Magnum engines as well as the bow thruster control. The current owner advises that both engine stern drives are removed, cleaned and serviced on an annual basis by the local Mercruiser dealer. The port engine shows 557 hours and the starboard 558 hours. Finally, you will have full control of anchoring with the remote controls for the anchor windlass.

There is a walk-through from next to the helm station up several steps to the forward deck area. Sun worshippers will love the two new removable sun pads!

Moving down through the sliding door you will enter into the salon area. The fact that this area is fully heated and airconditioned with a Dometic reverse AC unit will make year-round cruising comfortable no matter the outside temperature. Meals can be prepared using the two burner Kenyon electric cook top as well as the Tappan micro-wave oven. Cooking supplies are readily available at the under counter refrigerator/freezer as well as surrounding storage. If cooking shows inspire your culinary prowess, this is easily achieved by the two flat screen TV's located in the lower area.

Sleeping arrangements are on the forward queen size berth as well as at the aft of the cabin.

Mechanical features include a Kohler 7.3KW generator, hot water heated by either the engine while running or the generator while anchored. The head is serviced with a VacuFlush toilet system,

Basic Information

Category: cruiser

Sub Category: Express

Model Year: 2006

Year Built: 2006

Country: United States
