SPECIFICATIONS

Overview

Sabatayn is a 1998 custom built steel hulled cutter built in New Zealand by Nalder & Biddle.

She was originally built for a deep sea treasure hunter and specked accordingly as a go anywhere, in any condition, boat. Sabatayn has sailed half way around the world to the shores of South America, the Caribbean's and back to Australia. She has undergone two major refits in 2017 and recently in 2022, including a haul-out and anti-fouling completed!

All her systems have been upgraded, are up to date and new.

In addition to her long term off grid supporting systems, she boasts a Bauer dive compressor and a sizable workshop including a 2 person decompression chamber, air holding tanks and more.

The Hydraulic system has been rebuilt and upgraded not only for the powerful windlass and bow thruster, but also to support the option of running a hydraulic crane (if needed) on the forward deck. All ready with mount and connections.

The Gardner engine was rebuilt in 2021, and now has 1100 hrs.

In the last five months, all the electrical and electronic systems have been replaced and new systems added.

Sabatayn can now sail for days or stay silent at anchorages, on battery power alone, even on cloudy days.

And if treasure is what you seek, this is most likely the only boat in the world that has a genuine piece under her mast.

A Spanish silver coin from 1740 is under the mast foot to bless her and crew on her passages.

A recent December 2022 Survey is available upon serious request.
