## Overview

Currently in the final stages of construction, Project NB066 is on track to be delivered in May 2024. NB066 is a highly anticipated superyacht with impressive features and specifications. Its semi-displacement steel hull combined with an aluminium superstructure ensures stability and comfort during cruises. Additionally, the low level of fuel consumption is a desirable feature for environmentally conscious individuals. Hotlab Yacht Design from Milan is responsible for both the interior and exterior design of the yacht, indicating a commitment to a cohesive and well-planned aesthetic. The luxurious master suite on the main deck and large-sized VIP suites on the lower decks offer ample space and comfort for the owner and guests. The 2 x MAN - D2868LE425 (588kW @ 2100 rpm) Diesel engines provide a top speed of 14 knots and a range of 3,500 nautical miles when cruising at 11.5 knots, which ensures maximum comfort with minimal output of vibrations and noise. The beach club and large sundeck with a Jacuzzi, connected to a lounge, create an indoor-outdoor social environment that is perfect for entertaining guests. NB066 is a well-designed and highly functional superyacht that is sure to attract interest. Key features:- Commercial class with RINA Unrestricted navigation- Designed by Hot Lab as Interior and Exterior with high-end finishings.- Steel-Aluminium Construction with a semi-displacement hull.- Up to 12 guests can accommodate by 5 cabins.- Multi-functional Beach Club area with swim platform
