SPECIFICATIONS

Overview

Custom built to be a sportfishing day boat, the CY55 was designed for speed. Hull #1 was completed in all Carbon and Kevlar and powered by twin 2000hp MTU M96L's. If built utilizing traditional fiberglass laminates and with half the horsepower, she has a predicted 40 kt top end.

An excellent platform for family fishing or entertaining, the aft cabin windows retract to compliment the open, airy layout. Three zones of climate control and gyro stabilization help provide a comfortable environment.

Fully Custom, so we're happy to discuss your ideas for your build.
