SPECIFICATIONS

Overview

Project Hekate-Revolutionary, Game Changing, Unmistakeable - It could only have come from the drawing board of the celebrated designer of the famous Tigershark Series.

In 2011, the first of the famous Tigershark Class was introduced, winning a slew of awards and accolades from prestigious industry icons. Now being built at Aegean Yacht, the revolutionary yachts have had many design elements copied but never equalled. It is still widely acknowledged as being “Best in Class.

HEKATE features a massive interior lounge area with huge windows and a full beam owner’s suite including private desk / vanity area with his & hers bathrooms, all on the main deck. On the lower deck two twins and two doubles allow for flexible guest arrangements and the fully floated interior guarantees minimal noise and vibration for the 10 guests. The interior design showcases a laidback Beach House style. Expect wooden flooring, light surfaces, minimalist lines, a contemporary feel blended with pure geometric form. And expect to be comfortable, all the guest areas onboard invite you in with open arms to relax and enjoy. HEKATE has incredible exterior spaces. A huge open aft deck play area, which can also accommodate two large tenders when required, is coupled with protected and intimate spaces further forward towards the main saloon. These offer a comfortable inside/outside experience and are sheltered from the elements while allowing almost uninterrupted views aft. The equally large sun deck features a large central bar and a dining table for 10. Further aft, sun lounging areas allow you to relax and connect with the sea or join the party on your own terms. Custom removable sun awnings, 12mm teak, oversized stainless steel Data deck ware, the quality is evident everywhere you look.Currently under construction, Hekate is set to be completed in June 2025.
