SPECIFICATIONS

Overview

Bowregard is a great example of a 30 foot cruising boat that checks off many items on your must have list! She is kept on a lift, ensuring that the hull stays clean and also removing all the mechanical systems from a salt water environment when the boat is not in use! This is a HUGE advantage on a stern drive boat. It also gives the potential purchaser a great opportunity to view the condition of the hull and all other items that would normally be underwater!

Bowregard is set up for day, weekend escapes or extended trips, with her 7.3 KW Kohler generator with 548 hours on it providing electricity for air conditioning and all the other comforts of home. She is powered by twin Volvo 4.3 GXI SX engines, driving 4 bladed stainless steel props. This power package will give you a cruising speed of 30 MPH and a top end in the area of 38 MPH!!! This allows you to get out there and stake your place at the sand bar early or escape an oncoming weather event!!!

As you enter this vessel, you will see the fresh water shower located conveniently by the boarding door, the next thing that will strike your senses, is the cushioned deck, finished in a gray "soft teak" maintenance free product. The large swim platform with built in swim ladder gives plenty of room for water activities. The cockpit is serviced by a sink/bar area with running fresh water, a cocktail table and surround seating for informal gatherings.

The helm area, located forward to starboard, has Volvo electronic shifter controls, a newer Garmin touch screen chart plotter, remote control for the sound system (main unit is in the protected salon area), remote control for the Jabsco spot light, Icom VHF radio and Bennet trim tab controls. All easily accessed while sitting in the comfortable, adjustable twin helm seat. To port of the helm area is another seating area for 2 adults to rest comfortably there is also access to the "walk thru" windshield so you can easily and safely access the bow area for line handling, anchoring and that all important sun bathing!

Moving down stairs into the air conditioned and heated lower area, you will see a beautiful galley area to port. This area is nicely equipped with a Norcold refrigerator/freezer, a solid surface glass cook top and a Tappan micro-wave, giving the chef in your crew many options for food/snack preparation!

Directly across the boat to starboard from this area, is a lounge/seating area with a table for meal time or game night! There is also a "smart" flat screen tv for movie night. Moving aft is a very large sunken seating area that can easily seat 6 adults and also makes into another berth. There is a second flat screen TV here as well!

Directly aft of the galley you will also find the enclosed head with a Vacu-Flush toilet and shower area.

In the bow area of the boat, is an island bed with plenty of storage under and around it. There are

also opening port lights and an overhead hatch for those times/nights when you want to enjoy the ocean breeze!

The mechanical area, located under the aft deck lounge, is easily accessed thru a hatch in the floor for daily fluid checks, bilge access, access to both engines as well as the generator. This area is protected against fire with an automatic fire suppression system as well.

The current condition of the hull and sides of this boat show that the current owner is a very capable captain showing a beautiful finish!

What more could you ask for at an amazing price???

Basic Information

Category: cruiser

Sub Category: Express

Model Year: 2007

Year Built: 2007

Country: United States
