## Overview

---

As FUSION II was built as a tender for a large motor yacht, diesel power was a requirement. Custom touches were added: a reinforced towing eye and (3) lifting points, a fiberglass swim platform, varnished mahogany exterior woodwork to match the mother ship, and a custom two-piece folding radar mast on the centerline of the windshield, which keeps the overall height of the boat at a minimum (at present the upper half of the mast and radar have been removed and the lower section now supports a VHF antenna and a light). She has had three very fastidious owners and has been in fresh water for most of her life. FUSION II is presented in tip-top mechanical and cosmetic condition.

## Basic Information

---

**Category:** Motor Yacht
