Overview

Great brands - those that make the history of lifestyle and design everyday - do not belong to the companies that manage them but to the people who love them, to the fans who dream about them and hone them with their admiration and enthusiasm

The key to understanding why Riva has transfused into Aquariva Super all the qualities and timeless charm of the legendary Aquarama, an unforgotten cult boat that is still an object of desire today.

Aquariva Super was born because there is a need in the world of yachting, and in the world more generally, for soft and elegant lines, for fine woods (the mahogany deck panelling with maple inlays) and luxurious leather finishes.

This outstanding yacht also features state of the art technology, such as the innovative electronically-controlled two speed gearbox, installed on the standard version, which boosts the acceleration of the twin powerful 370 HP Yanmar engines, enabling outstanding performances (with a top speed of 41.5 knots)
