SPECIFICATIONS

Overview

The 251 XSS, with forward seating, was designed to be a “hybrid” model capable of handling and performing in both inshore and offshore waters. This model has a draft of approximately 13” for backwater fishing; while the proud bow, hull design, depth and freeboard allow it to slice through offshore waves while keeping you dry. Standard features include a large anchor locker, port and starboard lockable rod storage boxes, high performance leaning post with rod holders, transom ladder and trim tabs. Optional features include rear deck jump seat cushions, port aerated bait well and a porta potti just to name a few. Beyond the stunning lines, ample fishing features and creature comforts Scout is known for, the 251 XSS also showcases Scout’s revolutionary T-top/glass enclosure, which was awarded a U.S. Design Patent
