SPECIFICATIONS

Overview

2002 Catana 581 "BLUE MOON" is returning to the market after the owner has spent 9 beautiful years with her almost all around the world. For those rare catamaran lovers who were not introduced to this model, this Catana's 58 has set and still is a benchmark for all modern performance cruising catamarans. Cruising at speeds between 10-14 knots under sails (she recorded 24 knots if someone needs that information), and 9-11 knots under power with extra low fuel consumption due to her efficient performance hulls makes her a dream for long-distance cruising. She is definitely one of the safest catamarans to be on in rough waters.
