SPECIFICATIONS

Overview

The exterior of the X80 has some traits of Princess brand identity thanks to the long flowing lines that extend from bow to stern, while large glazing along the main deck brings the outside in. A distinctive feature of the look is the forward raked screen, not only on the main deck but also doubled on the flybridge.

Flexible entertaining areas provide owners with multiple unique environments on-board. M/Y PERLA features 3 separate exterior guest area's - bow lounge area, aft cockpit and flybridge dining and relaxation areas - providing guests with privacy and tranquility. The forward deck features a comfortable size jacuzzi while the teak covered and hydraulically lifted aft bathing platform on the transom is not only for guests' convenience but also to launch and haul a large tender. The X80 is outfitted with a single enclosed helm station on the extra-long 'super flybridge' as its signature feature. The private salon and open relaxation area aft offer not only an elevated vantage point for enjoying the view, but also privacy when moored alongside other vessels. The main deck saloon is configured with two large sofas and a coffee table, a day head to port and the galley to starboard. The versatile, exceptionally roomy main deck of M/Y PERLA additionally features a second master stateroom with vast sea views and a privately accessed sundeck with a jacuzzi. It is an excellent suite—not as big as the full-beam VIP down below, perhaps, but much lighter, more accessible and with better views, bringing the total of cabins onboard this X80 to five. Down below you will find a comfortable and well-proportioned four-cabin layout - a full beam master stateroom located amidships, a forward guest stateroom, a double guest to starboard and a twin cabin with a pullman bed to port, all with en-suite bathrooms. Located aft of the main accommodation is the crew quarters which can accommodate 3 crew with the standard layout.

With it's beautiful walnut gloss wood design and flawless interior fit out life on-board the X80 really is unlike that of any other boat of its size.

KEY FEATURES:- 5 stateroom layout,- twin MAN V12 engines of 1900mhp,- 7,000 L fuel tank,- two ONAN 27.5Kw /50 Hz generators,- Steipner Hydraulic system and incorporated SPS92/VF1350 vector fin stabilizer system,- 190 l/h watremaker,- FLIR thermal camera,- 4 underwater transom lights,- all guest cabins, aft cockpit and flybridge fitted out with a TV and state of the art audiovisual systems,- sat TV antenna KVH TV6,- jacuzzi on bow terrace,- walnut gloss furniture finish.
