SPECIFICATIONS

Overview

Chaparral 2021 287 SSX

Chaparral designed their 287 SSX to be open and spacious for easy entertaining and comfort, and a deep cockpit for safety. She has an exceptionally deep cockpit both forward and aft for safety and a dry ride. It is a deluxe model and competitive with any of the high-end sport boats on the market in terms of fit-and-finish and build execution. However, it is what is below the waterline that makes this boat perform so well.

The extended running surface, 22-degree deadrise at the transom, reverse chines, and pronounced running strakes all combine to make the Chaparral 287 SSX both solid and easy to manage.
