SPECIFICATIONS

Overview

In the world of maritime craftsmanship, a remarkable marvel emerged in 2008: PREDATOR - a supremely quiet and elegant vessel, one of the quietest Feadships ever delivered, and first-ever Feadship with a reverse-bow to hit the water. Its distinction lies in a revolutionary four-engine propulsion setup, making it a true symbol of innovation. At its core, her engine room stands as a testament to exceptional engineering, an enduring masterpiece setting the Feadship standard. Widely recognized as a "temple of technology," this sanctuary is where engineering artistry reaches its peak.
