SPECIFICATIONS

Overview

SAVANNAH's all carbon kevlar construction ensures thrilling performance & impeccable balance thanks to her deep fin keel. In truth this Modern Classic Legend has never really been matched since her launch in 1997. Achieving a particularly good rating, it is no wonder SAVANNAH continues to turn heads on the racecourse where she has achieved podium results in Antigua, Newport RI, St Tropez and Cowes. With hydraulic winches & furling genoa, SAVANNAH can be easily sailed by 2-3 pers. and is an ideal purist's cruising yacht in which to cruise the Mediterranean or US coastline. This is a fine yacht not to be missed!

Built by Concordia Custom Yachts in 1997. The essence of elegance aboard and grace under sail was perfectly captured by Pedrick Yachts Design. Drawing from the grandeur of a bygone era, Pedrick Yacht Designs matched graceful proportions and a carefully planned interior with a modern underbody and advanced composite engineering. The result is a strikingly beautiful traditional styled yacht. Engineered to be strong yet light, her efficient keel produces high sail-carrying power and superior performance to windward. Savannah's thrilling performance under sail has made her a winning "spirit of tradition" racer. Her long overhangs and low freeboard were inspired by the magnificent J-Class yachts of the 1930's. SAVANNAH'S striking lines, low freeboard and flush deck is accented by varnished teak coamings and traditional skylights. Below decks the 1930's era continues with finely detailed panelled mahogany joinery in the full beam sumptuous saloon and cabins. Below the waterline, SAVANNAH has an efficient & fast cruising hull form, a deep fin keel and spade rudder. Utilising the latest composite engineering methods, her construction is of carbon fibre, kevlar and foam which creates a lightweight yet very robust hull. Savannah accelerates to exhilarating speeds. Engineered to be strong yet light, her efficient keel produces high sail-carrying power and superior performance to windward.
