## Overview

Two tried and tested hybrid models are available, inquire about the (P) Parallel Hybrid and (S) Serial Hybrid today.

This Multihull has it all!

The Serial hybrid system is sourced from Torqeedo the leader in electric mobility on the water with a global service network and more electric motors in the water than any other company.

The Parallel system allows for higher continuous speed while at the same time providing all the benefits of electric at cruise speed. Plus no generator necessary, saving on maintenance space and weight. The propulsion systems in each hull can function independently. Providing a redundancy level necessary for blue water and autonomous living.
