## Overview

---

All Rampage boats are designed for serious anglers who want to fish for billfish or meat far offshore in as much comfort as possible. While all convertible builders might say that, the fact is that the Rampage 45 has probably the fishiest cockpit on the market these days in class. Because she is light and has a relatively low dead rise at the transom of 12-degrees, she can be driven with reasonable power and does not need huge engines to get her into the 30-knot range. She is the largest boat in the Rampage line, so the builder has loaded in every feature imaginable from larger battlewagons into this powerful 45-package.
