## Overview

---

Since its inception in 1964, Viking Yacht Company, an American manufacturer of luxury sportfishing and cruising motor yachts, has become a global front-runner in the semi-custom fiberglass yacht production sector. The family-run business has seen the delivery of more than 4,000 boats over the years. The term "Viking" amongst owners of these yachts, directly correlates with the notion of superiority and distinction. The layout, extensively carpeted and open, consists of a three stateroom two-bathroom blueprint. The primary suite, residing on the port's side, is designed with an island-style queen-sized berth alongside a private bathroom. The two supplementary guest rooms are accommodated on the forward starboard side, featuring another bathroom. This bathroom may be accessed through the boat's passageway.
