SPECIFICATIONS

Overview

The Sabre 425 was designed to meet the demands of the sea while offering her crew handling characteristics that provide comfort and convenience. The deck plan was thoughtfully designed for safety and ease of handling. She has a high aspect, balanced rig and a powerful hull shape that yields excellent sea kindliness and directional control. Her easily managed sail plan and rigging were designed for the correct balance between light air performance and heavy weather stability. Sailing from her large T-shaped cockpit is a true pleasure. Designed for function, comfort and safety, the cockpit has high backrest combings and plenty of room for family and friends to spread out. The helm seat is raised allowing excellent visibility over the 44" SS destroyer wheel. She is easily driven with a fine entry forward and full sections aft.

Her interior offers luxury, comfort and convenience. She has two spacious cabins, an elegant main salon, a well laid-out galley, large navigation station and aft head with separate shower.

PROVIN RELIABILITY, SAFETY, PERFORMANCE, COMFORT AND LUXURY. If you are in the market for a top quality, high end, semi custom production sailing vessel you owe it to your self to take a look at this late model Sabre 425 (2nd to last hull built). She is well equipped and has been well maintained. Thank you for your consideration.
