SPECIFICATIONS

Overview

All Helmsman Trawlers feature proven, solid construction methods, exceptional craftsmanship, abundant use of quality materials, and capable, modern, wide-beam hull designs. The new Helmsman Trawlers 43 Sedan builds upon the tough hull design proven with our 43E Pilothouse, and offers a contemporary trawler design with full covered walk-around side decks, a saloon and helm station on one level, and an expansive flybridge and boat deck. The 43 Sedan features all the refinements developed from experience with our other models including roofline and deck water handling, interior sound attenuation, and full acoustic and thermal lining of the hull around the master stateroom. The owner's stateroom is roomy, with large and deep hanging lockers. Storage shelves line the walls, and drawers and storage lockers provide additional storage. The guest stateroom features a double berth, a hanging locker, storage lockers and drawers. An ensuite head with enclosed shower adjoins the owner's stateroom, and a second head with enclosed shower compartment serves as a convenient day head / guest head. A single stateroom version is available, as are custom layouts. Exterior features include a high bow, bulwarks side entry doors, and a large cockpit with a full-length cover. Full walk-around capability increase this boat's practicality and safety in all weather conditions. The flybridge accommodates a choice of layouts -- center helm with L-shaped settee, or a starboard helm with U-shaped dinette. The boat deck is large, with plenty of space for a dinghy and/or deck chairs. The entire upper deck is ringed with a no-drip edge. An optional hardtop over the flybridge is available. As with all Helmsman Trawlers construction quality is evidenced by thick deck sections, deep gel coat, sturdy welded double-rung rails, quality hardware, abundant teak (on the interior only!) and extraordinary fit and finish. Standard propulsion is a Cummins QSB 6.7 litre 250 hp electronically-controlled common rail engine. Other hp ratings (up to 550 hp) are available. Minimal exterior maintenance and reliable, economical propulsion systems allow owners to spend more time cruising. A wide range of options and custom configurations are available for order. We'd like to talk with you about your ideas! Price is for the base model, delivered in Seattle, WA or Charleston, SC, including all U.S. duties. Subsequent transportation may be additional. Canadians and other non-U.S. residents should inquire about pricing for non-U.S. deliveries. Renderings and drawings from ER Yacht Design, Ivan Erdevicki Naval Architect.
