SPECIFICATIONS

Overview

MCP Yachts and VRIPACK unveil their newest project A full custom aluminum Superyacht, developed and built side by side with the owner dreams. The perfect starting point for the multiyear design development agreement between MCP Yachts and the Dutch Studio Vripack. Seaview 40 meters features two powerful Caterpillar C32 engines of 1,925 MHP each, which together with a specially designed hull, offer a maximum speed of 19 knots and cruising range of 3,500 nautical miles. Economy and comfort transoceanic range at 10.8 Knots consuming in total only 100 liters per hour. The MCP 40.7M offers amazing indoor and outdoor spaces for all family members. A total of seven staterooms, including the Owner's, facing forward with a large private terrace. Two additional VIP rooms are located on the lower deck and the upper deck is fully dedicated for the family with a forward facing observation lounge including an a-symmetrical balcony for private family moments. The sky lounge has gullwing lookouts allowing for a forward-facing view adjacent to the connection to the large sheltered aft deck. All this neatly separated from the crew so they can perform to their best abilities as well. "Exterior - Privacy on board is an important achievement of the final layout. All environments are accessed and serviced by the crew via stairs and corridors independent of the guests. "Creating maximum space value on a 40 meter required a creative approach to space planning" says Bart Bouwhuis, creative director at Vripack. "A very energetic co-creation process between the Owner, MCP and our team lead to a perfectly sensible yet highly unconventional layout. Interior - A sea view maximized through large windows, simultaneous appearance of classic and modern, fit for refined travel, action-packed adventures to the outermost points of the planet or relaxing family cruises. A balance between boldness and refined elegance, comfort and performance are the parameters that define this exquisite 40.7 meters superyacht. The extraordinary partnership between these renowned brands brings to this project a result that is simply exceptional.
