SPECIFICATIONS

Overview

X90 Fast is the sportiest and most compact model of the renewed EXTRA range. Created on the basis of the great experience gathered in the 76, 86, 88 and 99 models, this new

project offers a tested and efficient layout: a spacious living salon, separated from the aft cockpit by the usual galley with up/down windows, which not only constitutes a partition between the two areas, but in this new model it also serves as a passageway and an access point: from here in fact the crew members reach their quarters located forward of the engine room, and it is also here that we find another access to the sun deck (also possible via the external walkway). All this to leave the bow salon and the helm station free from anyone passing and, if necessary, for the exclusive use of guests.

The outdoor spaces constitute the real strong element and can count on 86 square metres of space to satisfy the requirements of those Owners most sensitive to the contact with the environment and the sea.

The design is sleek and neat thanks also to the windows sliding in the hull.

Below deck, there are 4 double cabins with private bathrooms and the owner cabin amidships taking advantage of the 7.1 metre maximum beam.

The four members of the crew are accommodated in two cabins with private bathrooms.

The X90 Fast features three IPS 1350 Volvo Penta engines of 1000 hp each providing a maximum design speed of 30 knots. The cruising speed settles at 24 knots, while at 12 knots the range is 1000 nautical miles.
