SPECIFICATIONS

Overview

Built by the historic U.S. shipyard Magnum Marine in 1992, this Magnum 63 is the iconic powerboat of all time. The elegant and aggressive lines combined with power make this boats unique in the world. Driven by the desire of a fast and open boat, and following the recent trend of refitting legacy model yachts from the past, the owner has chosen to buy and completely refit M/Y FURY as an outstanding fully custom boat like a new construction.

The engine room is in flawless showroom condition with the installation of new MTU 12V2000 M96X engines. Then, every on-board system of the engine room has been replaced: from the fuel tanks to the water tanks, from the hydraulic system to the electrical one, from the Arneson surface drives to the bilge pumps. Finally, the boat has been completed repainted.

Moving on to the interiors, we completely removed the previous furniture and dismantled the existing cabins boasting a beautiful new contemporary state-of-the-art interior, designed by Tommaso Spadolini, that makes this boat one of a kind. She has an interior layout of three cabins and three toilets with orange and blue worked leather details and a large kitchen. The floor is in slatted teak with light joint. Modifications of the cockpit area have been numerous: the external furniture, seats and sundecks design has been completely rearranged so as to maximize the on-board space.

M/Y Fury has been reborn and despite she is a 90's boat it can be considered to all intents and purposes a new construction and so she offers a unique opportunity to purchase a high quality powerboat.
