Boat REF# · 327411 Length · 37'0" Year · 1987 Construction · GRP Underwater profile · Semi-Displacement Sleeping berths · 5 Engine · 1 x diesel 225hp, Ford Lehman SP225 (1987) **Lying · Everett, WA USA - Shown by Appointment**

Broker's Comments: This boat is an excellent version of a year-round Pacific Northwest boat.

The boat is equipped with an efficient single Ford Lehman SP225 turbo diesel, bow and stern thrusters, an Onan generator and Webasto diesel heater for easy handling and year-round comfort. The current owners purchased the boat in anticipation of a journey up the Inside Passage which was completed summer 2023! They have added three solar panels with a Victron control system, a Village Marine water maker, stereo system with Bose speakers throughout, a Roskelley-Olssen manual davit system which allows easy deployment of the dinghy, replaced the swim platform supports, upgraded the dinghy and motor and added Garmin navigation to the dinghy. The two-cabin, two-head layout offers privacy when cruising with others. The salon is cozy and the galley has loads of storage options to accommodate either extended cruising or living aboard. If you have been considering a Tollycraft, CHB or Grand Banks of this era, I encourage you to give this boat a good look!
