# SPECIFICATIONS

---

## Overview

---

**LUCHY** is one of the best kept surface drive 63 Sea Ray Sundancers available today and her 2 large staterooms provide generous accommodations. Sea Ray has outfitted this 630 Sundancer with twin Arneson Surface-Drives to eliminate all underwater appendages. The result is a 50 percent decrease in drag, which gives the boat quicker acceleration, a higher overall speed, and improved fuel economy for a longer cruising range. Shallow water capabilities are also increased with the elimination of underwater drive-shafts, struts, and rudders. The Arneson Surface-Drives are coupled to twin 1200HP 3412 CATS, to provide speed and dependability.
