SPECIFICATIONS

Overview

TURCONERI fuses timeless Baltic designs below deck with a streamlined exterior look and cutting-edge managerial technology. Designed by the experts at judel/vrolijk & co engineering, her minimalist, straightforward lines ensure modern aesthetics and performance. The sailing of this boat is uncomplicated with a goalpost-like framework used to maintain the sole point mainsheet out of the cockpit.

TURCONERI draws on Baltic's avant-garde carbon composite crafting procedures for her hull and deck, bringing her weight down to a mere ca. 40 tons.

If the polished teak interior speaks to the conventional Baltic style, then the electronic control systems, embodying the newest technology during her construction, showcase Baltic's pioneering approaches to fresh concepts and managing intricate electronic systems. As of now, the navigation electronics are in the middle of a comprehensive overhaul.

Given that all of the yacht's operations are observed and regulated via an extensive touchscreen providing visual and auditory responses, sailing and managing this boat has been proven exceptionally straightforward.

The TURCONERI houses 4 guest cabins, consisting of two twin cabins, one VIP cabin with a queensize bed, and the Master Cabin in the prow with two queensize beds. Each cabin comes with a private head. Two additional crew cabins are situated aft.

Basic Information

Category: Performance Sailboat
