SPECIFICATIONS

Overview

Key Features of the AB Inflatables 10 Lammina AL

- Aluminum hull open tender
- Lightweight yet rugged construction
- Perfect for limited capacity davits
- Ideal sailboat tender
- Durable enough for rocky shores & coral reefs
- Special rubber nonskid material
- Rubber keel protector on the full length of keel

World-renowned, innovative design created to fit your needs. This lightweight, hard-bottomed open tender is perfect for boats with lighter capacity davits. Featuring a tough aluminum hull for weight reduction and durability, this solidly constructed hull provides years of reliable use. The Lammina AL easily cuts through wakes and chop with a lower horsepower than fiberglass tenders. A full-length rubber keel protector enables you to cruise through unknown areas without worry, and its double-layer floor guarantees a dry deck and a stable ride. The bow locker serves as a convenient boarding step and comfortable seat for guests. You can also use it to store a portable fuel tank where the fuel line passes underneath the floor, leaving the deck free of obstructions. Please note, the engine not included with the purchase but can be added. Please ask us about available engine options. Price may not include commissioning, freight, and certain options.
