## Overview

---

Lead keels, long travelers for precise sail control, and lengthy inboard genoa tracks so the sail plan is balanced in all wind conditions are just a few of the many design features that sets the new Catalina 385 apart from other yachts. More unique features include a watertight StrikeZone™ collision bulkhead aft of the anchor locker. A new backstay system creates an impressive cockpit for the avid sailor, and Catalina's unique SecureSocket™ chain plates mast support system affords superior load resolution. The latest in the line of new Catalinas that evolved from successful design features and proportions of previous models, the 385's moderate beam is carried well aft for a spacious cockpit; modest freeboard reduces windage and a beautiful hand-finished teak interior brings it all home with classic warmth and styling that has been a trademark of Catalina for 41 years. Contact us for more details and the numerous option available to ORDER this boat today. Images are manufacturer provided and not of a boat in-stock.
