SPECIFICATIONS

Overview

This is your opportunity to custom build a K42 Launch, pick every option, color and upholstery type. Build times are currently running at 12-14 months. Custom built in the Netherlands. Why compromise when you can have it all? Never before have you seen a yacht that offers such a look and feel, space and comfort at such a competitive price. The Keizer 42 Launch combines beauty, style, comfort, great seakeeping and large interior spaces. Top quality and great value for money. That's why we dare to say that our different approach made her beyond compromise. Because of the hull design the Keizer 42 offers a very stable and dry ride. Getting on to the plane is extremely smooth with no use of trim tabs needed and cornering at high speeds is a joy to experience. Increasing the speed from 8 knots to 13/14 knots is without the traditional digging in at the stern. Because of this all round visibility is excellent at all speeds. The Keizer 42 offers you a soft riding hull with a performance to match. Easily doing anything between 16 and 25 knots in choppy sea conditions still offering comfort onboard or cruising flat out at 40 knots if desired. Compared to similar sized boats with similar engines consumption can be up to 50 % less. Between 16 and 25 knots the range is always a very impressive 400 miles plus....

Basic Information
