## Overview

---

This is an Arundel 27' built by the Landing School. She is powered by a low-hour Volvo D4 diesel engine providing fast and fuel-efficient cruising.

The Arundel 27 is designed by Steve Dalzell and turns heads in every port. The cold-molded hull is easy to maintain and provides a solid and comfortable ride in the choppy waters Buzzards Bay is known for. The stern drive provides for a shoal draft allowing the the boat to tuck right up to the beach or sandbar.

The cabin features a galley, double berth forward, and a fully enclosed head making weekend getaways a breeze.

A modern day classic, this Arundel 27 is currently in the water and ready to go! Call today to schedule an appointment to view.
