SPECIFICATIONS

Overview

Based on the StellarCAT AL2503, the SF2603 offers the same high volume tri-deck styling but has an upgraded power option for greater speed, a tuna tower that the company claims to be a class-leading one in terms of height to boat length ratio, and near water-level extended cockpits on each hull with reinforced soles and aft-opening hydraulic transom doors. The SF2603 is a long-range all-aluminium construction reaching a top speed of 21kts and a high cruise speed of 19 kts with its twin Volvo D13-IPS 1200 IMO Tier III compliant power arrangement. The maximum range of 2400nm is achieved through her 19,680 lt / 5200 gallon fuel capacity and 35% higher efficiency than inboard shafts with the forward facing IPS drive solution combined with the hulls being efficient flat surface planing ones. Boasting a huge 44 sqm / 473 sq ft aft cockpit the SF2603 space aplenty has been made available for refrigerated fishboxes/livewells, ice and ice slush machines, bait filet tables and freezers, rod reel and tackle storage and further storage lockers and freezer compartments.
