### Introducing ORCA PRO MARINE

#### Custom Luxury RIB

#### Your RIB ... Your way!

This is an opportunity to own a unique quality tender for transporting to and from your super yacht or taking a comfortable ride around the islands!

With easy access to the water and no bulky pontoons to climb over, this is the perfect leisure vessel for exploring while cruising.

Outstanding features include faux teak decks & swim platform, stainless steel anchor, shower with separate 26-gallon water tank, retractable Captain's chair, lots of comfortable seating, and much, much more!

So, you think you know Ribs? You may not know this... The inflated tubes on our Ribs are not what makes the boat float! They don't even touch the water apart from a small area at the stern! The Rib has the hull of a normal fiberglass boat, and this is the floatation device. "Won't the boat sink if the tube gets a puncture?" NO. The rib does not rely on the tubes to float. The material we use for our tubes (CSM) is an extremely tough multi-layered material, including laminated protective webbing inside the wall of the tubes. To puncture this material takes enormous strength, and even Heavy-duty wear and tear will not puncture the skin. The tubes are split into eight sections or "compartments". Each one is inflated individually. In the unlikely event that one section does get a puncture, the remaining seven sections will still be fully inflated and tubes & hull are Guaranteed for 5 years!

Center console accessories include Icon M330 VHF radio and Simrad G09XSE transducer with Cmap Pro charts.

**Also available in 22ft length and customized accessories.**
