## Overview

---

The LPC 300 luxury power catamaran is full of industry changing features not the least of which is its full-beam lower deck which will set the standard for all others in this category.

The boat features 300 square meters of total usable space. More than 3,200 feet of usable space is unprecedented for a catamaran of its size.

The unique patented design platform offers unparalleled square footage by utilizing a full beam guest quarters deck for five staterooms, an expansive full beam owners' cabin with a foldout balcony and its own private access to the beach club, as well as 4 additional guest staterooms with their own ensuite heads. Cabins for 4 crew and storage are on the lower deck at the bow.

The guest quarters deck takes full advantage of the full beam volume to deliver a master suite and guest staterooms that cannot be found on this size of yacht. On the main level, there is a large salon and an open atrium on top of the galley that sits half a level down. To complete this amazing boat the flybridge comes with a host of benefits hardly seen in her size; a hot tub, Texas-style BBQ, a high bar for cocktails, and a large al fresco dining table.
