Overview

2024 Evo Yachts R6 Engaging, for everyone A day on a boat is often exciting, especially for those who are not driving. R6 was designed with everyone's involvement in mind: the console is more integrated into the convivial area, made up of a chaise longue next to the workstation, while the kitchen is positioned behind the driving position. So even the driver can enjoy the company. The Xtensions sides change, with a system of roto-translating planes that allows for a continuous surface. The sunbathing area becomes even more beautiful and more performing. The sundeck hides two gates that block access to the stern area during navigation. R6 has the sportiness and sleek lines of an open, but hides the spaces and comforts of a cabin cruiser. Just a touch on the control touch screen and in 30 seconds the XTensions walls open, expanding the beach area into an area that can become a lounge, a solarium with integrated chaise longues, an open space for parties. You certainly won't go unnoticed. The beach can accommodate the additional Transformer platform, which rotates 270° on its axis to support boarding and disembarking, diving and water games, and to stay even closer to the sea. R6 can accommodate up to 3 comfortable and bright double cabins, with hidden storage space under the beds.

Basic Information

Category: Motor Yacht

Model Year: 2024
